LIM WEN HAO

Machine Learning / Data Science Intern

011-5860 6808 | wenhaojshs@gmail.com | linkedin.com/in/wenhao1223

PROFESSIONAL SUMMARY

Academically distinguished Year 3 Intelligent Computing majored **JPA-LSPM Scholar (CGPA 3.90)** and **President** of the USM Computer Science Society (2024/2025 academic term) with proven leadership and strong foundational knowledge in **full-stack web development**. Seeking an **AI/ML internship (Mar-Sep 2026)** to apply practical coding expertise and competitive experience (Hackathons, CTFs) within a challenging machine learning environment.

EDUCATION

Bachelor of Computer Science (Intelligent Computing) with Honours

Universiti Sains Malaysia (USM), Gelugor, Penang   *Expected Graduation: October 2027*

- **Current CGPA:** 3.90 (until Year 2 Sem 2)
- **Academic Awards:** 4x Top 10s Dean's List Achiever (Year 1 Sem 1 to Year 2 Sem 2)

SKILLS

Programming Languages | Python • JavaScript • C++
AI/ML & Data Science | TensorFlow • Keras • OpenCV • YOLO • Pandas • NumPy • Amazon Bedrock
Web Development | ReactJS • Astro • Vercel • Tailwind CSS • Figma
Cloud & Backend Services | Firebase • AWS • Cloudflare
Databases | MySQL • MongoDB • Airtable
Mobile Development | Flutter
Version Control | Git • GitHub
Soft Skills | Team player • Strategic leadership • Effective communication • Deliver results

* Note: For a detailed skill lists, refer to my GitHub Profile.

WORK EXPERIENCE

Telebort Technologies Sdn. Bhd. | Python • YOLO • Machine Learning • HTML • CSS • Scratch
Part-time Technical Instructor   *December 2023 – May 2024*

- **Demonstrated Effective Communication:** Taught and mentored 52 students (ages 8-16) across 110+ hours, simplifying complex concepts in AI with Python and Data Analysis.
- **Achieved High Student Satisfaction:** Delivered 53 lessons and maintained exceptional average ratings (4.94/5.0 lesson and 4.91/5.0 instructor), with over 90% of students reporting clear understanding.
- **Curriculum Coverage:** Specialized in delivering foundational programs including AI with Python, Data Analysis, Web Design (HTML/CSS), and creative computing (Scratch).

ViTrox Corporation Bhd. | Machine Learning • Data Preparation • Data Annotation
Part-time ML Data Annotator   *April 2022 – July 2022*

- **Data Annotation:** Contributed to the model training data preparation pipeline for Machine Learning (ML) and Machine Vision Inspection systems.
- **High-Volume Execution:** Accurately labeled over 100 images per day (including complex circuit boards and document samples) over three months.
- **AI Pipeline Exposure:** Demonstrated foundational experience in the critical data annotation phase, building robust datasets for supervised learning models.

HONORS & AWARDS

JPA-LSPM Scholar (2022–2027) | Awarded for academic excellence (SPM: 9A+ 1A).
Top 20 Finalist, Great Malaysia AI Hackathon (2025) | Tech Lead for MyGov Hub (out of 350+ teams) in ASEAN's Largest On-Site AI Hackathon.
Top 8% World Wide CTF (WWCTF) (2025) | Ranked among 1600+ global teams, demonstrating proficiency in cybersecurity and exploitation challenges.

PROJECTS

MyGov Hub – AI-Powered Government Services Assistant | AWS Bedrock • AWS Lambda • MongoDB • Python
Tech Lead   *September 2025 – October 2025*
https://github.com/MyGovHub-Goodbye-World

- **Recognition:** Top 20 Finalist at the largest ASEAN on-site hackathon, Great Malaysia AI Hackathon 2025 (AWS Malaysia).
- **Architecture & AI Integration:** Led the development and deployment of a secure conversational AI chatbot using **AWS Bedrock** to unify fragmented government e-services (licenses, payments, summons).
- **Backend & Data Integration:** Designed and deployed scalable services using **AWS Lambda** and **MongoDB** to manage data, integrate payment APIs (Billplz), and ensure high-availability system performance.

Seismic Bump Prediction (ML/DL Research) | Python • TensorFlow • Keras • Pandas • Scikit-learn
Academic Research Project   *March 2025 – July 2025*
https://github.com/WenHao1223/seismic-bump-prediction

- **Advanced Modeling:** Conducted a two-phase research project to predict seismic hazards, developing and benchmarking baseline models (KNN, DTC, SVM) for comparative analysis.
- **Deep Learning Integration:** Engineered a **Neural Network (NN)** model to achieve superior performance, specifically optimizing for high **Recall** in detecting high-energy seismic bumps.
- **Data & Model Optimization:** Applied **GridSearchCV** for robust hyperparameter tuning and leveraged Python libraries (Pandas, Scikit-learn) for end-to-end data processing and model deployment.

PIXEL USM – Project Innovation & eXploration Website | ReactJS • Astro • Tailwind CSS • Firebase • Airtable • Cloudflare • GCP
Head of Technical Department (2024) / Associate Head (2025)   *May 2024 – July 2025*
https://pixelusm.com/

- **Strategic Leadership:** Led a technical team across two project cycles, applying **agile principles** to coordinate technical teams and manage deployment timelines in high-pressure, event-driven environments.
- **Full-Stack Development:** Directed the full-stack development and deployment of the official event website, overseeing the implementation of **React/Astro** for interactive front-end experiences.
- **Backend & Cloud Integration:** Engineered a secure and scalable backend by integrating **Firebase** (Auth, Cloud Functions, Database) for application logic, **Airtable** for content management, and **Google Cloud Platform (GCP)** services, prioritizing stability and security features like ReCAPTCHA.

* Note: For a detailed project lists, refer to my [LinkedIn Project](#) page and [GitHub Repositories](#).

LEADERSHIP EXPERIENCE

President, Computer Science Society (CSS) USM
Universiti Sains Malaysia (USM), Gelugor, Penang   *July 2024 – July 2025*

- **Executive Management:** Directed the strategic planning and daily operations of the largest departmental tech society at USM, coordinating a 60+ member team and managing the annual calendar of all technical and non-technical events.
- **Flagship Project Direction:** Served as Project Director for critical initiatives, including the Varsity Hackathon 2025 and the PayNet & NACSA Industrial Tour 2025; also organized the technical Embedded LLM AI Workshop.
- **Corporate Engagement & Outreach:** Cultivated university partnerships with **30+ industries** to secure sponsorship, resources, and facilitate corporate engagement; served as a **Speaker** for university outreach and acted as an official Representative at major tech events (e.g., DevFest, GitHub Field Day).

LICENSES & CERTIFICATES

Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate | Oracle • October 2025 (Expires October 2027)
Introduction to MongoDB | Issued by MongoDB • April 2025
